

LUSIVE KNOWS CASINO LIGHTING

Decorative light fixtures for Casino and Gaming areas provide special challenges and offer the opportunities for unique design and custom manufacturing solutions.

SECURITY CAMERAS:

- Lighting with customized security camera integration for casino gaming areas.

SPRINKLERS:

- Lighting with customized sprinkler integration to adhere to fire safety codes.

24-HOUR USAGE:

- Light sources that are both energy-efficient and long lamp life solutions.

MAINTENANCE:

- Fixtures that are designed for easily accessible maintenance in a gaming area.

GAME TABLE LIGHTING:

- Lighting designed for the even distribution of illumination across gaming tables.

DECORATIVE DESIGN:

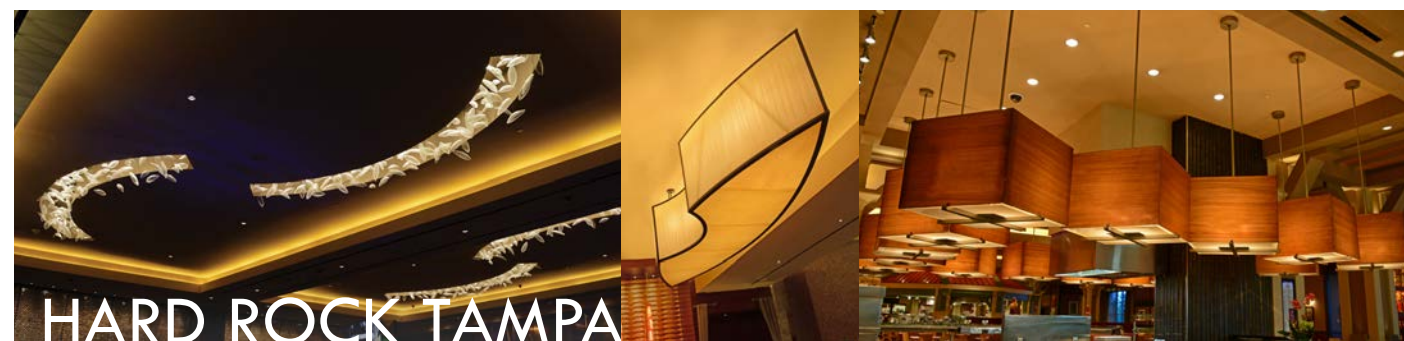

- Fixtures that add to the aesthetic value of the gaming spaces.

BET ON LUSIVE

With more than 20 years of experience working on some of the most notable casino and gaming projects in the world, Lusive’s specialty is designing and creating custom casino lighting. In addition, our lighting designers are trained in engineering and consultation for casino lighting design, electrical control systems and architectural lighting design.

Casinos often require much larger and more dynamic lighting fixtures than other traditional architectural design projects, which is what Lusive specializes in. The scale and scope of custom lighting fixtures for casinos can be quite challenging and often requires complicated fabrication and logistical efforts.

Lusive’s 85,000 sq. foot domestic manufacturing facility and team of over 80 locally-based employees in Los Angeles, as well as our international presence, enables us to tackle the largest projects; these attributes, in addition to our high-standard of quality and timely delivery, has made Lusive the premier casino lighting manufacturer in the United States.
